DETAILED ACTION

Specification

1. The disclosure is objected to because of the following: In paragraph 0018 thermosetting resins, thermoplastics, polyethylene and polypropylene are listed as elastomeric polymers. Polyethylene and polypropylene are not elastomeric polymers. This means that not all thermoplastics are elastomeric polymers. Thermosetting resins, with the exception of crosslinked elastomers and vulcanized rubbers are not elastomeric either. In paragraph 0031, hydroxyl-TEMPO is shown as a crosslinker. Hydroxyl-EMPO is an unexplained abbreviation. There cannot be any unexplained abbreviations in the specification. "4-hydroxy-2,2,6,6-tetramethyl-1-piperidinyloxy, free radical (hydroxyl-TEMPO)" is acceptable.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Polyethylene and polypropylene (claim 2) are not elastomeric polymers. Hydroxyl-TEMPO (claim 13) is an unexplained abbreviation. There cannot be any unexplained abbreviations in the claims. See paragraph #1.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-22 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of copending Application No. 10/841,596. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed compositions are identical.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
